University of Texas Health Science Center
Dissecting Fungal Induced IL-33 Production in Respiratory Epithelial Cells

Andrew McCall, MD

University of Pittsburgh
Influences of Limb Afferents on Central Vestibular Processing

Albert H. Park, MD

University of Utah
Congenital Cytomegalovirus Induced Hearing Loss in a Murine Model

The Triological Society has announced the funding of five research grants effective August 1, 2013. The five career development grants have been awarded in the amount of \$40,000 each for a period of one to two years. These awards will provide support for the research career development of otolaryngologists-head and neck surgeons who have made a commitment to focus their research endeavors on patient-oriented research such as clinical trials, translational research, outcomes research and health services research.

The Society has awarded more than \$3 million in grant funds since 1994.

For information on the Society's 2014 grant programs go to www.triological.org
