TRIOLOGICAL SOCIETY

Career Development Grants
2021 Awardees

The Triological Society is proud of its history of promotion of research through funding of clinical and basic research and alternative science. Through the Society's two grant programs, more than $6 million has been awarded to fund the research of young otolaryngologists.

The Triological Society is pleased to announce the recipients of the 2021 Career Development Awards who will each receive $40,000 in support of their projects. Congratulations to these investigators.
